Dear Edward:

On behalf of Cleveland MOTTEP and the Kidney Foundation of Ohio, thank you for your ongoing support of the *Healthy Teens, Healthy Tomorrow* program. Each year, the program reaches minority teens in Cleveland with a vital message of health and wellness. The invaluable information you provide during your keynote address certainly contributes to the success of the program.

Our collaboration with the YNOTT Foundation has strengthened the *Healthy Teens, Healthy Tomorrow* program over the years. As a leader and role model for teens, you embody the message of health and wellness. Your testimony about organ donation serves as an example to the teens making the vital decision to donate.

The following highlights some comments from various teens and chaperones who heard your keynote address:

- "(Organ donation) is something I plan on doing and it just supports my decision"
- "I learned a lot I didn't know from Edward. I would love to donate a kidney"
- "I want to live a long life and don't want to die soon"

As you can see, your message continues to touch the lives of teens and adults in the *Healthy Teens, Healthy Tomorrow* program. Thank you for your dedication to the youth of our community.

Sincerely,
